

Final Project Grading

Course: Internet Appl/ Distributed Sys

General	Excellent 3.1–4.0 points	Good 2.1–3.0 points	Satisfactory 1.1–2.0 points	Needs Improvement 0.1–1.0 points	No attempt 0.0 points	Criterion Score
Presentation and Delivery	Presentation is well-structured. Clear explanation of purpose. All members speak confidently and show equal participation. Each explains their individual contribution clearly. Live demo is presented.	Mostly structured; a few unclear parts. Purpose & features mostly explained. All members participate; some parts uneven or unclear. Live demo is presented.	Explains features but lacks smooth flow or rationale. Most participate, but distribution of speaking is imbalanced OR unclear contribution. Live demo is presented.	Members are either silent , or absent , or do not explain their work , or read mostly from their papers/electronic devices . Live demo is presented.	No presentation AND/OR No live demo	/ 4

General	Excellent 3.1–4.0 points	Good 2.1–3.0 points	Satisfactory 1.1–2.0 points	Needs Improvement 0.1–1.0 points	No attempt 0.0 points	Criterion Score
GitHub Contribution & Activity	Consistent commits throughout development (not all in one day). Shows real progress over multiple weeks. Each member contributes meaningful code (views, models, forms, etc.). Contributions are clearly based on their own work . Clear, descriptive commit messages (e.g., “Added UserHistory session tracking”). No suspicious patterns; code clearly written by students.	Mostly consistent; a few gaps, but development timeline still visible. Most members contribute meaningful code; some parts slightly unbalanced. Mostly descriptive messages; few generic labels; code appears authentic.	Irregular commit pattern; long gaps; some progress still visible. Uneven: one or two members contribute more than others; limited coding by some members. Some generic messages (“update”, “fix”), but work is still understandable.	Very few commits OR most commits come at the very end. Appears rushed. Minimal individual coding; unclear who did what; possible code-sharing. Many generic or copy-paste commit messages; limited explanation; looks automated.	No GitHub history OR No access to the GitHub history	/ 4

Mandatory Functional Requirements	Yes 0.6–1.0 points	Partially 0.1–0.5 points	No 0.0 points	Criterion Score
-----------------------------------	------------------------------	------------------------------------	-------------------------	------------------------

Mandatory Functional Requirements	Yes 0.6–1.0 points	Partially 0.1–0.5 points	No 0.0 points	Criterion Score
Authentication (login/logout/forgot password)	Implemented	Partially implemented or minor issues	Poorly implemented/Not implemented at all	/ 1
Forms, Models, and CRUD Operations	Implemented	Partially implemented or minor issues	Poorly implemented/Not implemented at all	/ 1
User Sessions & Cookies (History Tracking)	Implemented	Partially implemented or minor issues	Poorly implemented/Not implemented at all	/ 1
Search + Dropdown Filter	Implemented	Partially implemented or minor issues	Poorly implemented/Not implemented at all	/ 1
File Upload Feature	Implemented	Partially implemented or minor issues	Poorly implemented/Not implemented at all	/ 1
Registered vs Guest Interface Differences	Implemented	Partially implemented or minor issues	Poorly implemented/Not implemented at all	/ 1

Quality Evaluation	Excellent 1.6–2.0 points	Good 1.1–1.5 points	Satisfactory 0.1–1.0 points	Unsatisfactory 0.0 points	Criterion Score
--------------------	-----------------------------	------------------------	--------------------------------	------------------------------	-----------------

Quality Evaluation	Excellent 1.6–2.0 points	Good 1.1–1.5 points	Satisfactory 0.1–1.0 points	Unsatisfactory 0.0 points	Criterion Score
Visual Design & UI/UX Quality	Professional styling using Bootstrap, clean layout, readable fonts, consistent color palette, smooth navigation, and a complete footer aligned with theme.	Good styling overall; minor layout or spacing inconsistencies; footer present but not polished; color theme mostly consistent.	Basic styling with Bootstrap; limited attention to spacing, readability, or aesthetics; footer minimally styled or incomplete.	Very poor or no styling; default Django look; missing footer; unclear or messy layout.	/ 2
Testing	Thorough testing evident during demo; all features work without visible errors; testers handle edge cases gracefully (validation, wrong logins, empty search).	Most features work; minor bugs noticed; small validation gaps.	Features work inconsistently; noticeable bugs or errors; limited validation; team struggles to handle issues.	Website frequently crashes, fails to run, or core features do not work; no handling of errors.	/ 2
Questions & Answers	Answers confidently and clearly in own words; strong understanding of code (views, models, sessions, authentication, queries); able to explain logic and decisions.	Answers most questions correctly with minor hesitation; can explain their code contribution.	Answers partially correct but lacks clarity; struggles to justify code; limited understanding of core concepts.	Unable to answer questions about code; reads from slides; no understanding of own work.	/ 2

Bonus	Yes - Week 11 0.1–1.0 points	No - Week 12 0.0 points	Criterion Score
Early Defense Bonus	Bonus for defending the project during Week 11	Not applicable (defending the project during Week 12)	/ 1

Total	/ 21
